**Jack up vessel assisting with Offshore platform
commissioning works at Gwynt Y Mor**
Duration: Commencing 22nd April 2013 until further notice.

Please be advised that the jack up vessel, JB-114, will be assisting with Offshore Platform (OSP) commissioning works from the 22nd April 2013. The JB-114 will be supported by the tugs Union Fighter and Union Diamond. The JB-114 will initially be placed at a location on the North East side of OSP East (approx 10 metres off) within the boundary of Gwynt Y Mor Windfarm. It will remain there for approximately 4 weeks. The JB-114 will then either relocate to OSP West to complete the same task or remain on the project as an installation drilling vessel. When on location this vessel will require 500m exclusion zone to be observed at all times. During transit to/from the port of Liverpool the appropriate clearance for a tug and tow should be observed. The vessel will monitor VHF CH 16 at all times.
