Notice to Mariners

Hydrographic & Geophysical Survey Operations

Please be advised that Bibby HydroMap Ltd. will be carrying out hydrographic & geophysical survey operations in the following area:

- Development site at Holyhead Deep
- Route corridor around Holy Island

Survey Operations are anticipated to commence on **9th June 2015** weather permitting. The expected duration is **14 days**. Survey operations will be undertaken using survey vessel MV Chartwell.

Overview of Survey Area

MV Chartwell Details

MV Chartwell is a 26m mono-hull with blue hull and white topsides. The vessel will operate on a 24hr basis and will display appropriate day shapes & lights during survey operations. The vessel will actively transmit an AIS signal.

Survey operations will involve towing survey equipment on and below the water surface, up to 200m behind the vessel. A wide berth is requested at all times as the vessel will be restricted in her ability to manoeuvre. Survey speed will generally be around 4 knots.
