

NOTICE TO MARINERS

Issue Date: 31st August, 2017

Western Link Project

Installation Survey Works

Mariners are advised that Survey works for the installed cable sections previously communicated for deep water installation Campaign 5b and sections of Campaign 1, Campaign 3 & Campaign 6 are planned to commence in early September 2017 with completion expected in September 2017.

The Survey works are being carried out by **Prysmian** using **Normand Pacific** (IMO 9491977; Call Sign LAXI7) PLIB support vessel.

Vessels are requested to pass at a safe speed and distance and fishing vessels are advised to remain a safe distance (approximately 1.5 nautical miles) from the areas identified.

The vessels will monitor VHF Channel 16 at all times.

PLIB Support vessel - Normand Pacific

Survey Works

Following the completion of Campaign 5 and other small sections of remedial work, the PLIB vessel will conduct survey operations on these sections of the route. The survey will consist of a visual and instrumental ROV survey of the installed Western Link cable; during these works the vessel will have restricted maneuverability as she completes her scope of work.
