Recommencement of Export Cable works at Gwynt y Mor

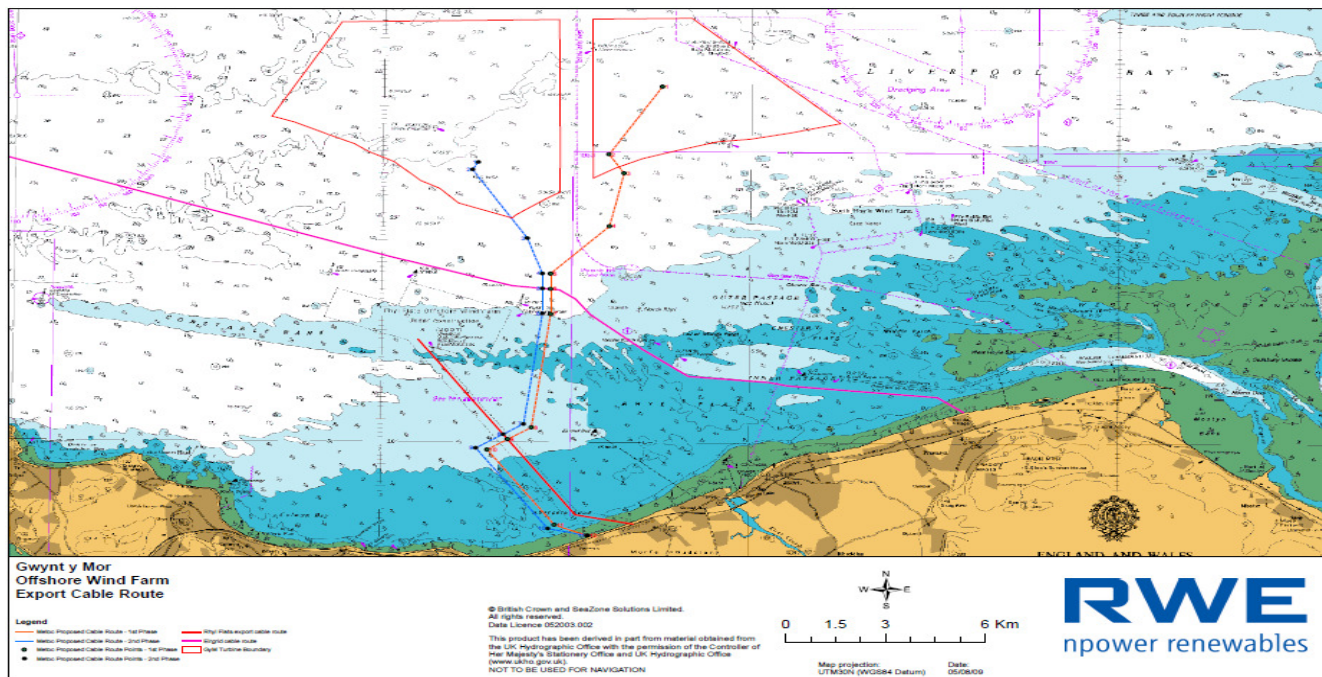

Duration: Commencing 1st April 2013 until further notice

Please be advised that Export Cable Works are expected to recommence on the 1st April 2013 at Gwynt y Mor Offshore Wind Farm. These works will last until further notice.

There will be 4 export cables in total. 2 cables from the beach at Pensarn (Blue Line) leading to the Offshore Sub Station West platform and 2 cables from the beach at Pensarn (Orange Line) leading to the Offshore Sub Station East platform.

The Cable Installation Barge "Cable Enterprise" will be installing the cables. Cable Enterprise will be supported by the Norne[lead tug], MCS Ailsa (Support Vessel) and Forth Joustier (Support Vessel). The Cable Enterprise will deploy Anchors, Cables and Buoys.

All vessels are requested to keep at least 1200m clear of the Cable Installation Barge at all times when on location. As well as Cable laying operations there will be other operations involved including a PLGR (Pre Lay Grapnel Route Survey) carried out by The Support vessels. This will follow the cable installation routes as mentioned. All vessels are to give 500m clearance from these vessels at all times.
All vessels will be contactable on VHF 16.
