GWYNT-Y-MOR OFFSHORE WINDFARM SSEC3 Export Cable repair, Date of Issue: 2nd March 2021

Please be advised that Briggs Marine Contractors (BMC) has been contracted by Gwynt-Y-Mor OFTO to undertake a repair to the SSEC3 export cable due to a power core fault at approximately 53° 22.85110 N, 003° 35.71116 W.

The work will be undertaken by the DP2 jack up installation vessel, **MPI Resolution** and the multi-purpose support vessel, **Zwerver I**. Additional support will be provided by the Crew Transfer Vessel, **Iceni Spirit**.

Operations will commence from the 23rd January and are expected to be completed by the 8th March, subject to weather.

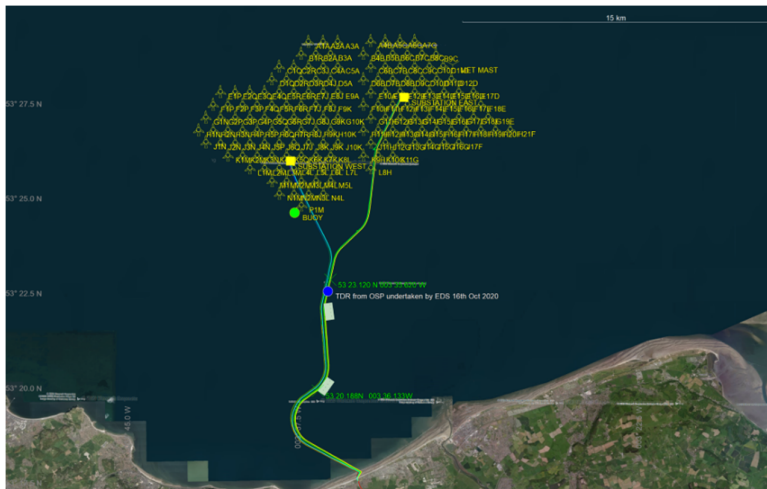

Figure 1 - Gwynt-Y-Mor site with suspected fault location shown

The repair work will be concentrated within the existing cable route corridor, between the following coordinates.

Latitude	Longitude
53° 23.120N	003° 35.620W
53 22.68539N	003 35.76643W

Vessel Photo	Vessel Description
	Installation vessel MPI Resolution Dimensions: - 130m LOA - 38m beam - 4.30m draft
	DP2 multi-purpose support vessel Zwerver I Dimensions: - 68M LOA - 24m beam - 2.4 – 3.5m draft
	Crew Transfer Vessel Iceni Spirit Dimensions: - 15.8m - 6 beam - 1m draft

During these operations the MPI Resolution and Zwerver I will be restricted in their ability to manoeuvre and vessels are requested, in the interest of safety, to pass with care and at a safe speed and distance (advisory 500m). Should any vessel wish to come within 500m of the repair vessels, then direct communication with the Master is required.

Operations will be undertaken on a 24 hour basis and vessel's will display the appropriate lights/shapes for restricted manoeuvrability.
