

Notice to Mariners

Vessels and General Safety Advice

GWYNT-Y-MOR OFFSHORE WINDFARM **SSEC3 Export Cable repair,** **Date of Issue: 04th May 2021**

Please be advised that Briggs Marine Contractors (BMC) were contracted by Gwynt-Y-Mor OFTO to undertake a repair to the SSEC3 export cable due to a power core fault at approximately 53° 22.85110 N, 003° 35.71116 W.

The main works were completed in early March 2021. A small loop of cable remains unburied and raised above the seabed by approximately 2m.

A north cardinal buoy is now in position 75m north of the cable loop on the following location and display a very quick flashing white light.

The marker buoy will remain in position until July 2022 when cable replacement works are planned to be completed by.

Latitude	Longitude
53° 23.052N	003° 35.481W
