

Notice to Mariners

Researchers from Aberystwyth University are deploying two up down moorings on Thursday the 13th of May as part of the Ecostructure project. Both moorings will have a yellow buoy which will have all of the relevant information on it, in case there are any issues, including phone number, email and affiliation.

One will be located within the Gwynt y Môr windfarm at 53.4715, -3.55329 and another within the Awel y Môr footprint at 53.485, -3.7923559.

Details of the vessel from which the moorings will be deployed are listed below

Name:	Discovery	(shows on AIS / Marine Traffic)
Callsign:	MGDS4	
MMSI:	232024544	
description/colour:	see below
