

Notice to Mariners

Researchers from Aberystwyth University are deploying 18 moorings within the Gwynt y Môr windfarm between the 21st-23rd of June as part of the Ecostructure project. 6 moorings will be deployed 100m away from each turbine location. All moorings will consist of 2 pairs of weights with a 70m groundline between. There will be no buoys as part of these moorings.

21st - 'South site' turbine code - HO7R : 53° 27.084' N 3° 37.6836' W
 22nd - 'Central site' turbine code - B03A : 53° 29.112' N 3° 35.7732' W
 23rd - 'North location' turbine code - E13D : 53° 28.122' N 3° 32.0334' W

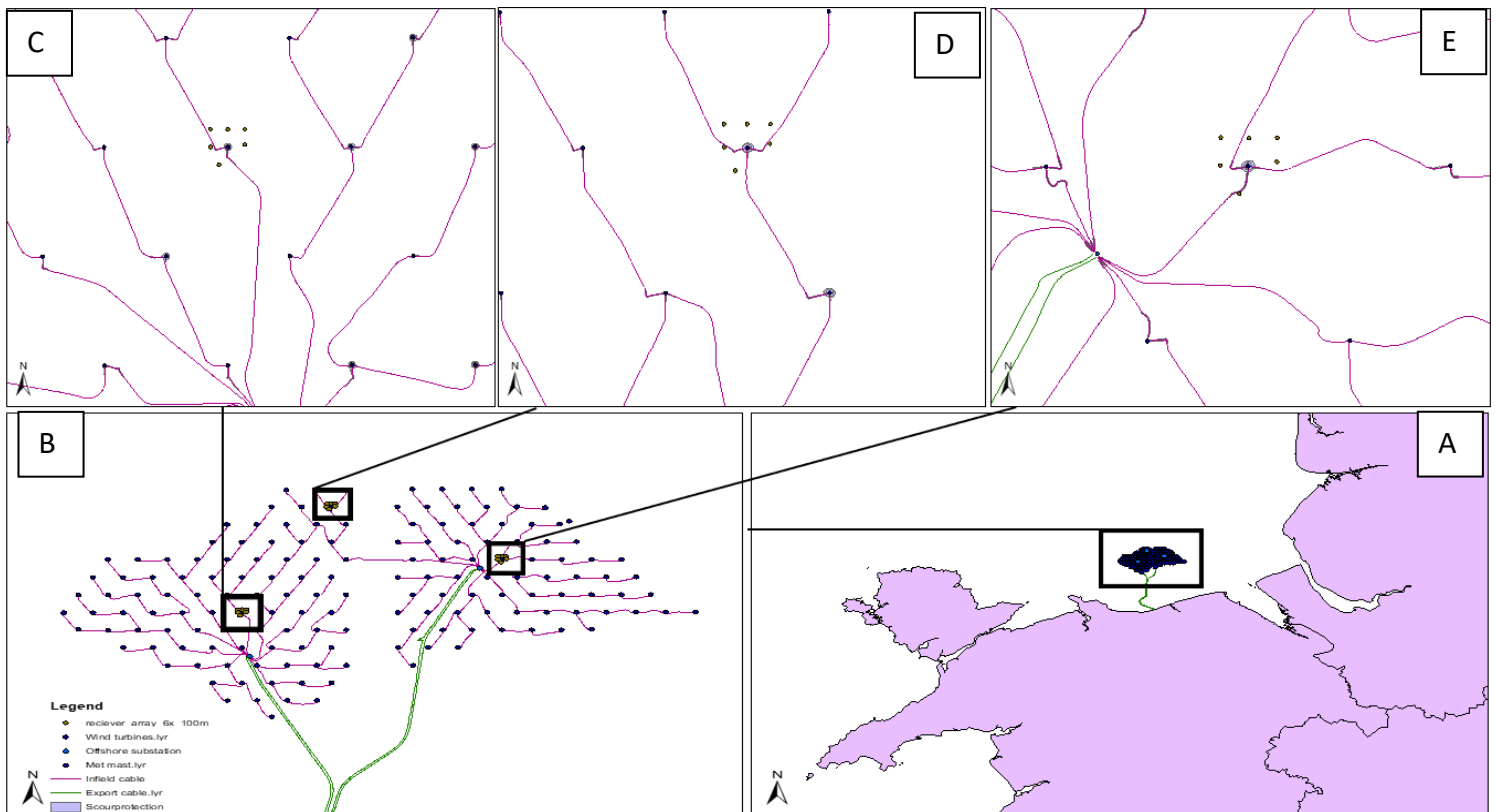

Figure 1: (a,b) Whole site map including 3 experimental areas. (c) South location (d) Central location (e) North location

Details of the vessel from which the moorings will be deployed are listed below

Name: Gwen-paul-M (shows on AIS / Marine Traffic)
 Callsign: 2EYG5
 (updated from picture below)
 MMSI: 235089335
 description/colour: see below
