

NOTICE TO MARINERS

Gwynt Y Mor Export Cable Survey

Please be advised of this notice advising mariners of the pre-setting of 3x mooring points for Gwynt Y Mor cable project. The Green Isle will carry out the setting of anchors. The work will start some time from the approx. 13th of July 2024 with the works scheduled to last up to 2 days subject to weather.

Figure 1 – Gwynt Y Mor Project Area

Nature of Operations

For the operations of N-sea the pre-set moorings will be used to being carried out prior to some maintenance work on one of the Gwynt Y Mor export cables (subject to a separate Notice to Mariners).

The Green Isle vessel will conduct the operations on a 12-hour basis, and will position the mooring on 3 positions as shown in figure 1. We kindly ask that all vessels in the local vicinity observe a 200m stand-off at all times.

During the setting of moorings, the vessel will display the prescribed lights and signals for anchoring operations and will be monitoring VHF Channels 16 and 12.
