

NOTICE TO MARINERS

Gwynt Y Mor Export maintenance

Please be advised of this notice advising mariners of the positioning of 1x jack up barges Haven Seariser 4 for Gwynt Y Mor cable project. The barge will carry out the works on the Gwynt Y Mor project. The Haven SeaSeven barge is positioned on 2nd August. The positioning of the Seariser 4 is planned for 10th August. Work will start from approx. 11th of August 2024 and is scheduled to last up to 10 days subject to weather for the jack up barges. The Green isle will remains working on site until end of August, latest begin of September.

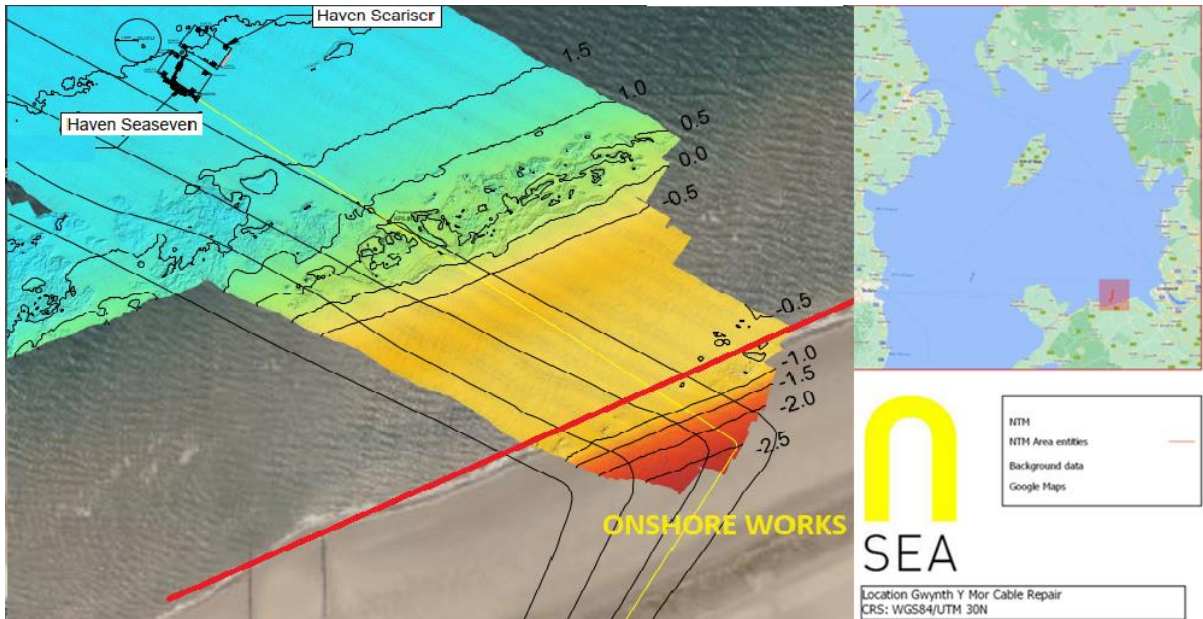

Figure 1 – Gwynt Y Mor Project Area

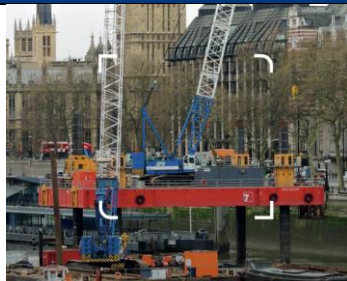

Nature of Operations offshore

For the operations of N-sea the jack up barges will be used carry out maintenance work on one of the Gwynt Y Mor export cables – barges will be setup around locations 53° 18.1588 N / 003° 34.4364 W. We kindly ask that all vessels in the local vicinity observe a minimal distance of 500m stand-off at all times.

During the operation, the barges will be positioned on a fixed point and supporting vessels will sail to and from the barges. The barges and vessels will display prescribed lights and signals for operations and will be monitoring VHF Channels 16 and 12.

Nature of Operations onshore

During the works offshore works are planned onshore as well. For this a beach compound is setup with landbased equipment, this to assist and install all required on the beach itself. The beach will be partly fenced off and Security will be on site will to prevent tourist to walk in to the site. Further information regarding beach works will be displayed on the beach itself.
